63 moons technologies limited

Message From **MANAGING DIRECTOR & CEO**

DEAR SHAREHOLDERS,

Your Company has been fulfilling the role of a disruptor in several ways for many years. With technology in its DNA and its inherent indomitable spirit, **63 moons technologies limited** has surmounted many impediments over the past few years. You have been witnessing many changes brought about by your Company in enabling seamless operations in the realm of financial markets. Your Company's performance, as displayed by garnering a major market share in its sphere of operations, has indeed been remarkable despite the strong headwinds.

At this juncture, we are looking ahead at embracing new-age technologies that are set to revolutionise the digital world. Your Company has been a torchbearer in the technological advancements in the fintech space, providing the necessary support of critical technologies for multi-asset class exchanges, among the other segments.

During the year under review, 63 moons, through its subsidiary company, has undertaken a number of initiatives by adopting the emerging technologies of Web 3.0, such as AI, Machine

Learning, Blockchain Technology, Cyber Security, and so on, to bring the benefits of technological advancements to the masses. Your Company strongly believes that such adoption of newer technologies would help democratise the rich dividends flowing therefrom among its partakers.

REVIEW OF BUSINESS VERTICALS

In the following sections, we review the performance of business verticals of your Company in bringing about the change for a better world.

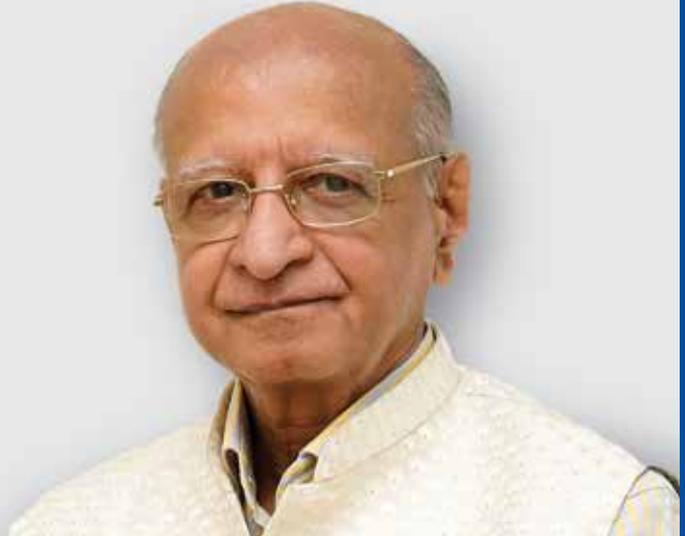

BROKERAGE TECHNOLOGY SOLUTIONS

Your Company's flagship technology product - ODIN - from the stable of Brokerage Technology Solutions (BTS) has witnessed a moderate business growth during the year 2022-23.

The ongoing legal issues have largely been attributable for the marginal growth in profitability and have caused severe headwinds for revenue growth. Among the other reasons, high cost of retaining the rich talent pool post-Covid has also taken a toll, while a big drop in revenues emanating

S. RAJENDRAN

Managing Director & CEO

from STP Gate has significantly impacted your Company's profitability.

Nevertheless, the BTS vertical has continued with unleashing enhancements and innovations to its core product suite, which has not only transformed the product range but has also paved the way for higher customer loyalty. While your Company faces severe environmental headwinds, the BTS division continues to persevere and is taking all the possible steps to keep intact its market share.

EXCHANGE TECHNOLOGY SOLUTIONS

Your Company's another business vertical, Exchange Technology (ET) Division, takes pride in serving India's largest commodity exchange, Multi Commodity Exchange of India Limited (MCX) and India's newest stock exchange, Metropolitan Stock Exchange of India Limited (MSEI).

As the business dynamics have been playing around over the previous few years, MCX had intimated its intentions by serving notice to end services at the end of technical support contract. Further, MCX truncated the bilateral discussions

by running Request for Proposal (RFP) process for technology procurement. Given the open pricing of ET's technology support services, your Company did not compete with RFP, as also, the Division was in the midst of discussion on the proposal, which could be in conflict.

However, MCX before concluding the bilateral discussions, awarded the contract to another vendor and unilaterally closed the discussion.

On the eleventh hour, MCX requested for extending the support services for three months from October 1, 2022, which was promptly provided. In the last week of December 2022, MCX approached your Company for extending the technical support. This time the extension was for six months effective from January 1, 2023, and ending on June 30, 2023. This request too was another last-minute extension sought by MCX. Recently, another last-minute extension was sought by MCX which is now effective for the period from July 1, 2023, to December 31, 2023.

The revenues flowing from the extensions of contract may not compensate the opportunities

that remain in the pipeline but will help your Company in shaping itself for newer horizons of innovations using the extensively experienced human capital.

With the turn of the above events, your Company demonstrates its indomitable spirit, which has helped itself to remain in a niche position and overcome the unfavourable situations in business.

RISK SOLUTIONS

Risk Solutions Division, your Company's another solution provider focussing primarily on Banking, Financial Services, and Insurance (BFSI) sector, has successfully been able to complete the third phase of its project on enterprise data flow management for an Indian regulator during the year 2022-23. The Division had commenced work on this particular project last year. With the completion of this project, a total number of 45 regulated entities have started submitting data to the regulator by using the Division's application. The Division has also successfully onboarded a few Housing Finance Companies (HFCs) as its clients and the Division's flagship product, DataCollector – has now been deployed to Amazon Web Services (AWS) by one of its international regulators and the same is now under User Acceptance Testing (UAT).

Your Company's Risk Solutions Division has successfully deployed its Value-at-Risk (VaR) product using the Python environment, thereby enabling the user to compute data at a faster speed for a large client portfolio. The Division has also started research in the area of Business Intelligence for enhancing the user experience for MIS reports.

The Division has actively been engaging in creating a stand-alone Interest Rate Risk of Banking Book (IRRBB) solution as per the latest RBI guidelines issued in February 2023.

Additionally, the Division has participated in Domestic and International Tenders for its DataCollector Product independently, and in association with a Global System Integrator having a committed presence in emerging market economies.

THE ROAD AHEAD

Your Company's pursuit for excellence has been eternal. Its unparalleled indomitable spirit and zest for bringing in advancements to its line of products has made the journey a truly remarkable one.

Your Company looks forward to the technological advancements in making its suite of technology solutions efficient, effective, and user-friendly. With these steps, the focus of 63 moons is in the direction of garnering a lion's share in its sphere of operations.

Keeping the fast-paced world in mind, it has adopted in the group, the latest aspects of technological advancements in Web 3.0, such as AI, Machine Learning, Blockchain Technology, Cyber Security, among others, to make its solutions one among the top-of-the-line.

Your Company believes that its inherent indomitable spirit would help achieve the goals it has set for itself in the coming years.

MANAGEMENT DISCUSSION & ANALYSIS

► MANAGEMENT DISCUSSION & ANALYSIS

OVERVIEW

During the year under review, overall economic activities faced several challenges. Some of the challenges that clouded the economic environment were, Russia's invasion of Ukraine, thereby leading to supply shocks, outbreak of COVID-19 in China and its zero-Covid policy that further accentuated the supply-shocks. This led to building up of inflationary pressure, thereby compelling the central banks to tighten monetary policies to mitigate the inflation.

Let's have a detailed perspective of the economic situation in the below sections.

GLOBAL ECONOMIC OVERVIEW

The global economy was faced with challenges at different levels, sustained the momentum gained in the preceding quarters despite the still elevated but somewhat moderate inflation, tighter financial situation and lingering geopolitical tensions.

The world economy witnessed a major shock when Russia invaded Ukraine in the first quarter of CY2022, and the war still continues to cloud the economic recovery. The Russian attack on Ukraine had an immediate response of a ban being imposed by the western powers on dealings with Russia that led to supply chain disruptions. This, in turn, affected the overall pace of growth across geographies.

As per IMF's projections, global economic growth moderated to 3.4% in 2022 from 6.3% in 2021, due to several factors such as impact of the Russia-Ukraine war, disruptions in trade, zero-Covid policy of China. This aggravated the already ubiquitous high inflationary situation in many countries, that led to tightening the financial conditions on the back of higher interest rates, among other factors.

Economic growth in Advanced Economies (AEs) halved to 2.7% in 2022 from 5.4% in 2021. Within this group, European economies posted a moderate growth of 3.5% in 2022 against 5.4% in 2021. The US economic growth also slowed down to 2.1% compared to the growth of 5.9% in 2021.

The performance of Emerging Market and Developing

Economies (EMDEs) was slightly better than the performance of AEs. EMDEs expanded by 4% in 2022 as against the growth of 6.9% in 2021. A severe slowdown in growth is due to China's zero-Covid policy that led to a drastic decline in China's growth from 8.5% in 2021 to 3% in 2022, accounting for most of the moderation in economic growth among the EMDEs.

On the price front, global inflation remained elevated at 8.7% in 2022, compared with 4.7% in 2021. Higher global commodity prices due to the Russia-Ukraine war as well as stressed global supply chains were responsible for the steep increase in prices. Inflation in several AEs as well as EMDEs remained well over the central banks' target bands. To bring inflation under control, central banks world over raised policy rates aggressively. Amongst major AE central banks, the US Federal Reserve raised policy rates by 500 bps, followed by the Bank of England (BoE) and the European Central Bank (ECB) with rate hikes of 440 bps and 375 bps, respectively, during the same period.

Amidst a decline in global growth and weak demand, the world trade volume of goods and services dipped in 2022 to 5.1% from 10.6% in 2021. This was led by a sharp deceleration in volume of goods export to 2.6% compared with 10.7% in 2021. The volume of goods imports was also lower at 4% in 2022 compared with 11.5% in 2021. Uncertainties have once again risen over the global growth outlook.

Owing to these headwinds, the IMF projects global GDP growth at 2.8% in 2023 with heavily tilted downside risks. In fact, the report notes that the possibility of a "hard landing" has increased. As per the report, growth in AEs is expected to moderate further to 1.3%. This will be led by a sharp slowdown in growth in Euro Area to just 0.8%, on one hand.

On the other hand, the growth in EMDEs is expected to be slowing marginally at 3.9%. This will be supported by a strong rebound in growth in China, which is expected to grow by 5.2%. This is expected to offset the loss in momentum in activity in other countries such as India, Brazil and South Africa.

On the back of softer global commodity prices, led by food

and fuel, the global inflation is expected to decelerate in 2023. Core inflation in several economies continues to remain high. However, recently the inflationary trend appears to have slowed down, leading to a hawkish pause in raising of rates by RBI and similarly in several other countries across the globe.

INDIAN ECONOMIC OVERVIEW

India's economy registered a strong growth of 7.2% in FY23, much higher than anticipated, signalling a kind of resilience in the economy. Despite the global headwinds at play, Indian economy is poised to do much better than the global counterparts on the back of strong domestic fundamentals.

Among the sectors, agriculture and allied sector posted a growth of 4% in FY23 compared with 3.5% in FY22. Industry sector came down from a high base of 11.4% in Apr-Mar 2022, to 5.1% in Apr-Mar 2023, which was led by slowdown in manufacturing and mining activity, while electricity production continued to inch up. Manufacturing activity moderated with 4.5% growth in FY23 versus 11.8% growth posted during FY22.

Separately, services sector performed very well, as was also indicated by services PMI, averaging at 57.3 in FY23 against 52.3 in FY22.

Despite the moderation experienced in economic momentum in FY23, prices continued to remain elevated. CPI inflation averaged at 6.7% in FY23, up from 5.5% in FY23, thus also crossing RBI's upper tolerance band of 6%.

During Q1 of FY23, the inflation was at its peak of 7.3%, following the breakout of war between Russia and Ukraine in February 2022. Core inflation, too, remained sticky with around 6.1% in FY23 compared to 6% in FY22. In the current fiscal year (FY24), RBI expects headline CPI to ease to 5.2%. However, significant upside risks to the projection remain, owing to food price dynamics, adverse climate conditions leading to erratic performance and spread of monsoon and imported inflationary pressures.

The external situation in FY23 was strained as trade deficit ballooned to US\$267 bn from US\$191 bn in FY22. Coming off a high base and due to weakening global demand, our export growth slowed to 7.2% in the last fiscal year, following 54% growth witnessed in FY22. On the other hand, relative stability in domestic demand and volatile commodity prices led to a less-sharper dip in imports.

On the monetary policy front, RBI has hiked repo rate by 250 bps in FY23, in line with global central banks. In its first policy for FY24, RBI decided to pause but has indicated that it stands ready to act if inflation does not fall within the targeted band. Going forward, RBI expects FY24 growth to settle at 6.5%. As most developed economies

are projected to enter recession/face significant slowdown in economic activity in CY23, and uncertainty is likely to prevail in global financial systems, this could pose risks to our domestic growth.

On the positive side, Indian Meteorological Department's (IMD) prediction of normal monsoon augurs well, enhanced government budget for capex spending, and lower inflation, is expected to provide the necessary support to growth during FY24.

OUTLOOK FOR 2023-24

Although some challenges are persisting such as inflationary pressure – though benign – holds the future direction of RBI's monetary policy, the threat of economic slowdown in the advanced economies leading to weak demand for our exports, could impinge upon the domestic economy. Nevertheless, the huge potential of domestic economy could insulate against the external forces of economic slowdown.

There are noteworthy positives as well, such as the decline in commodities prices including crude oil prices, solid momentum in GST collections, and the government push for capex in both – the public and the private sector. Given the challenges, the growth looks to moderate a bit owing to lower exports and impact of high interest rate regime on the business sentiments.

With the potential such as strong domestic demand, resilient if not robust economic activities could push the economic growth higher in the long-term. IMF has projected that the Indian economy is a bright spot in the overall economic scenario.

NEW VISION

EMPHASIS OF MATTERS

1. We draw attention to Note 42 to the Standalone Financial Statements which describes Company's investment of Rs. 20,000 Lakhs (face value) in secured non-convertible debentures issued by IL&FS Transportation Networks Ltd (ITNL) (subsidiary of Infrastructure Leasing & Finance Ltd – ILFS), whereas, the ITNL has defaulted in repayment of interest and various rating agencies revised their credit ratings to the lowest category 'D' i.e. default. Resolution process has been initiated under Companies Act for ITNL, in addition to various investigations and legal proceedings. During the resolution process, Hon'ble NCLAT has approved the Revised Distribution Framework proposed by the New Board for interim distribution. The Company without prejudice to its rights had impaired the investment for the expected credit loss by ₹ 7,500 lakhs till 31 March 2022. During the year ended March 31, 2023 the Company has further impaired the investment by ₹ 4,136.55 lakhs and has written off above-mentioned amounts in respective years.
2. We draw attention to Note 44 to the Standalone Financial Statements which describes Company's investment of Rs. 30,000 Lakhs (face value) in 9% Yes Bank Perpetual Additional Tier I (AT-1) bonds. The hon'ble Bombay High Court has quashed and set aside the letter dated 14 March 2020 issued by the Administrator, Yes Bank and decision to write off Additional Tier 1 bonds. On the request of the Yes Bank Counsel the hon'ble Bombay High Court has stayed this order for period of six weeks.

INDEPENDENT AUDITOR'S REPORT

To the members of 63 moons technologies limited

Yes Bank and RBI challenged the Bombay High Court's order before the Supreme Court and accordingly stay was extended subject to the final order passed by the Supreme Court. It describes the uncertainty related to the current outcome of the above-mentioned order.

Our opinion is not modified in respect these matters of emphasis.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements taken as a whole, in forming our opinion thereon and we do not provide a separate opinion on these matters. Apart from 'Basis for qualified opinion' we have determined the key audit matters as described below:

- A. Determination of fair value of carrying amount of investments
- B. Accounting treatment for contracts with customer
- C. Contingent liabilities

A. Determination of fair value of carrying amount of investments

Description of key audit matter

The Company has investments net of provision of Rs. 76,214.15 Lakhs as at March 31, 2023 consisting of Investments in the equity instruments of subsidiaries, third party bonds, mutual funds, other equity instruments etc. and are valued as per Ind AS 109, "Financial instruments". By their nature, these are subjected to various factors related to respective investee entities including but not limited to, economic factors, business dynamics, financial performance etc. and impact a fair valuation of these investments. Accordingly, this necessitates a close monitoring by the management of these situations and judgement, based on appropriate evaluation criteria to arrive at a fair value of carrying amounts of these assets as at balance sheet date. Against this background, this matter was of significance in the context of our audit.

Description of Auditor response

We have carried out a comparison between carrying value of investment as at balance sheet date and net-worth as reflected by latest audited financials of investee companies. Wherever carrying amount of investment is more than the net-worth of investee Company we have discussed and enquired with the management the process followed by them to identify permanent diminution, if any, in the value of investment and necessary accounting treatment adopted in the books. In addition, management has provided us with the future business plans and how in their business judgement such gap between investment and net-worth of the investee is either compensated with improving business conditions or valuations of such entities. Going forward our regular audit procedures are designed to keep a follow up on outcomes of these management assertions.

B. Accounting treatment for contracts with customer

Description of key audit matter

Revenue amounting to Rs. 27,249.38 Lakhs reported in the Company's financial statements pertains to customer specific contracts and the same are required to satisfy the recognition and measurement criteria as prescribed in IND AS 115, 'Revenue from Contracts with Customers'. Company's revenue is bifurcated into two main parts (a) revenue from software products (IPR based licenses) and (b) revenue from software services. Certain contracts necessarily involve estimations and certain assumptions to be made by the management in determining the quantum of revenue to be recognised in specific period. This inherently creates certain uncertainties and results in complexities in accounting treatment wherein incorrect assumptions and estimates can lead to revenue being recognised in incorrect accounting periods thereby impacting the results. Considering these factors, in the context of our audit this matter was of significance and hence a key audit matter.

Description of Auditor's response

With a view to verify the reasonableness of the revenue accounting we carried out following procedures:

- a) Understanding the internal control environment for revenue recognition and to test check with a view to verify its operating effectiveness;
- b) Major contracts were read and analysed to verify correctness of accounting of revenue as calculated by the Company's Management;
- c) Discussed with the management process of identification of variable consideration and verified the working on test basis;
- d) Verified the working of unbilled revenue and unearned revenue on test basis;
- e) Performed analytical procedures and obtained reasons for major variances;
- f) Ensured that revenue is recognized in accordance with accounting policy of the Company and Ind AS 115;

C. Contingent liabilities

Description of key audit matter

Contingent liabilities as at March 31, 2023 amounted to Rs. 18,016.27 Lakhs, which mainly include pending income-tax matters and certain legal cases other than those forming basis for our qualified opinion. Contentious income tax matters relate to interpretational differences between the Company and various tax authorities, certain matters subjected to internal circulars and guidelines within tax authorities irrespective of stated legal provisions sometimes requiring decision making only by higher tax authorities through appellate procedures resulting in delays in outcome. Given the current legal and operational embargo that the Company is facing, it is subjected the multiple litigations by and on the Company sub-judice at various courts and levels requiring the Company's Management to exercise significant judgement on these outcomes to determine the liabilities that are contingent in nature. Considering these factors, in the context of our audit, this matter was of significance and hence a key audit matter.

Description of Auditor's response

With a view to ensure that disclosures made by the Company in Note 32 to the Standalone Financial Statements, are determined appropriately and prudently, we obtained information of pending income-tax matters from the Company and have obtained/verified the documents including the communication with the departments provided by the Company. In addition, we have carried out comparison with respect to previous year and obtained/reviewed documentation for additional tax matters arisen during the year. Our tax team has carried out discussions with the Company's internal tax team on these cases mainly with respect to issues raised by various tax authorities in their communication to the Company to substantiate Company's assessment that there are no present obligations perceived.

With respect to legal cases disclosed to us, we have obtained updates on pending cases from the management and discussed it with the Company's internal legal department, wherever necessary. We carried out a comparison between the latest status and immediate previous status. While comparing, we have tried to ascertain the appropriateness, without being judgemental, of the management judgement exercised in updating to the latest status and have tried to evaluate an impact on such ascertainment of whether the Company liabilities to which it is contingently liable are appropriately ascertained with prudence principle.

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable

INDEPENDENT AUDITOR'S REPORT

To the members of 63 moons technologies limited

assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- A. Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- B. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- C. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
- D. Conclude on the appropriateness of management and Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- E. Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 2 (f) under the heading, "Report on other legal and regulatory requirements" of our report on even date:

REPORT ON THE INTERNAL FINANCIAL CONTROLS

[UNDER CLAUSE (i) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")]

OPINION

We have audited the internal financial controls over financial reporting of **63 moons technologies limited** (hereinafter referred as "the Company") as of March 31, 2023 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

In our opinion and to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (hereinafter referred as "the guidance note") issued by the Institute of Chartered Accountants of India (hereinafter referred as "ICAI").

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's Management and Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the guidance note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the guidance note and the SAs issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those SAs and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statements.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 2(f) under the heading, "Report on other legal and regulatory requirements" of our report on even date:

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on

NOTES

forming part of the Financial Statements for the year ended March 31, 2023

account of various discounts and schemes offered by the Company as part of the contract. Revenue also excludes taxes collected from customers.

The revenue from the sale of software products (IPR based licenses) is recognised on delivery/granting of right to use. In respect of service contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized over time. Revenue from fixed price service contracts is recognised based on acts performed as specified in the contracts over the contract period where performance of several acts is required over that period. In the case of time and material contracts, revenue is recognised on the basis of hours completed and material used. Revenue from annual maintenance contracts, lease of licenses, IT infrastructure sharing income and Shared Business Support Services is recognised proportionately over the period in which the services are rendered/licenses is leased. Revenue from sale of goods is recognised on transfer of control over the goods to the customer. Sales are recorded net of returns (if any), trade discounts, rebates, and goods and service tax. Projected losses, if any, are provided in entirety as per Ind AS based on management's current estimates of cost to completion arrived at on the basis of technical assessment of time and effort required and estimates of future expenditure.

Revenues in excess of invoicing are classified as contract assets (which are referred to as unbilled revenue). Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms. Invoicing in excess of revenues are classified as contract liabilities (which are referred to as unearned revenues)

3.2 Interest Income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

3.3 Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established.

3.4 Investment Property Rental Income

Rental income from investment property is recognised as revenue on a straight-line basis over the term of the lease and presented as other income. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease.

3.5 Property, Plant and Equipment

i. Recognition and Measurement

Property, Plant and Equipment (PPE) are carried at cost less accumulated depreciation and any accumulated impairment losses, if any.

The cost of PPE comprises its purchase price including import duties and non-refundable purchase taxes after deducting trade discounts and rebates and any costs directly attributable to bring in the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

PPE which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset form part of the cost of the asset. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the assets) is recognised in Statement of Profit & Loss.

ii. Subsequent Expenditure

Subsequent expenditure relating to PPE is capitalised only when it is probable that future economic benefits with these will flow to the company and cost of the item can be measured reliably. Repairs & maintenance costs are recognised in Statement of Profit and Loss as and when incurred.

iii. Depreciation

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives. Leased assets and leasehold improvements are depreciated over the shorter of the lease term and their useful lives.

Depreciation methods, useful lives and residual values are reviewed annually and the effects of any changes in estimates are accounted for on a prospective basis.

Freehold Land is not depreciated. For others, depreciation has been provided on the basis of estimated useful life as follows.

NOTES

forming part of the Financial Statements for the year ended March 31, 2023

Assets	Useful Life
Office Equipment	2 to 5 Years
Electrical Installations	10 Years
Computer Hardware	3 to 6 Years
Furniture and Fixtures	5 to 10 Years
Vehicles	5 Years
Building	58 Years
Leasehold improvements	Over lease period (2 to 5 years)

Assets costing up to ₹ 5,000/- are fully depreciated in the year of acquisition

iv. Reclassification to Investment Property

When the use of a property changes from owner-occupied to investment property, the property is reclassified accordingly.

3.6 Intangible Assets

Intangible assets are stated at cost less accumulated amortization and impairment, if any. The cost of intangible assets comprises its purchase price including import duties and non-refundable purchase taxes after deducting trade discounts and rebates and any costs directly attributable to bring in use. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. Research costs are expensed as incurred. Amortization methods and useful lives are reviewed annually and the effects of any changes in estimates are accounted for on a prospective basis.

The Company amortises intangible assets using the straight-line method over the estimated useful life as follows:

- Patents, copyright and other rights - 8 years
- Computer software - 4 to 6 years

3.7 Investment property

Investment property is measured at cost less impairment, if any. Any gain or loss on disposal of investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in Statement of Profit and Loss. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated using the straight-line method over their estimated useful lives. Fair value is calculated using discounted cash flow method and other relevant factors, if any. Useful life of the investment property is considered as 58 year or lease period whichever is lower.

3.8 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. The classification of financial instruments depends on the objective of the business model for which it is held. Management determines the classification of its financial instruments at recognition.

Classification	Initial Recognition	Subsequent Recognition
Non-derivative financial instruments		
a) Financial assets at amortised cost: if it is held within business model where purpose is to hold asset for contractual cash flows that are solely payments of principal and interest on principal outstanding	At fair value including directly attributable transaction costs	Subsequently carried at amortised cost using effective interest rate method less any impairment loss
b) Financial assets at fair value through other comprehensive income: if it is held within business model where purpose is to hold asset for contractual cash flows that are solely payments of principal and interest on principal outstanding and also selling financial assets	At fair value including directly attributable transaction costs	All changes in value excluding interest are recognised in OCI. Interest is recognised on effective interest rate method in Statement of Profit & Loss
c) Financial assets at fair value through statement of profit and loss: if financial asset is not classified in any of the above categories	At fair value excluding directly attributable transaction costs. Transaction costs are recognised in Statement of Profit and Loss	Fair valued at each subsequent reporting date
d) i) Trade receivable (Those do not contain significant financing component.) ii) Loans	At transaction price At fair value	Subsequently held at amortised cost, using the effective interest rate method, net of any expected credit loss

NOTES

forming part of the Financial Statements for the year ended March 31, 2023

Classification	Initial Recognition	Subsequent Recognition
e) Investment in subsidiaries and associate	At cost	At cost net of expected credit Loss
f) Other Equity investments	At fair value	And changes through Statement of Profit and Loss
g) Financial liabilities	At fair value including directly attributable transaction costs	At amortised cost: using effective interest method except certain items
Derivative financial instruments		
Financial assets or financial liabilities	At fair value	At fair value through statement of profit and loss: if financial assets or financial liabilities are not designated as hedges
Share capital		
	Ordinary shares classified as equity	Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects

Financial assets are reclassified subsequent to their recognition if and in the period the Company changes its business model for managing financial assets.

Derecognition of financial instruments:

A financial asset is derecognised by the Company only when:

- Contractual right to receive cash flows from the assets expires; or
- The Company has transferred the rights to receive cash flows from the financial asset; or
- If the Company has not retained control of the financial asset; or
- The Company has transferred substantially all risks and rewards of ownership of the financial asset.

Any gain or loss on derecognition is recognised in statement of profit and loss including cumulative gain or loss in case of financial assets subsequently valued at fair value through other comprehensive income. In case of financial assets subsequently fair valued through profit or loss, gain or loss is presented on a net basis.

A financial liability (or a part of a financial liability) is derecognized when the obligation specified in the contract is discharged or expires. Any gain or loss on derecognition is recognised in statement of profit and loss.

3.9 Measurement of Fair Value

Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The Company regularly reviews significant unobservable inputs and valuation adjustments. In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

3.10 Impairment

i. Financial Assets:

For the financial assets which are not fair valued through profit or loss, the Company tests loss allowances using the expected credit loss (ECL) model and recognises, if any.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

ii. Non-financial Assets:

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then asset's / cash generating unit (CGU)'s recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is estimated. An

NOTES

forming part of the Financial Statements for the year ended March 31, 2023

impairment loss is recognised if the carrying amount of an asset / CGU exceeds its recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

3.11 Foreign Currency Transactions

Transactions in foreign currencies are translated into the functional currency of the Company at the exchange rates at the dates of the transactions or at rates that closely approximate the rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction and are not retranslated. Foreign currency differences are generally recognised in profit or loss.

3.12 Employee Benefits

i. Short-term Obligations

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees is recognised as an expense during the period when the employee renders those services.

ii. Other long-term employee benefit obligations

Compensated Absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each reporting date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the reporting date and recognised in Statement of Profit and Loss. Expense on non-accumulating compensated absences is recognized in the year in which the absences occur.

Defined Benefit Plan

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated at each reporting date by actuaries using the projected unit credit method.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised, net of tax impact, in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost. The amount of net interest expense calculated by applying the liability discount rate to the net defined liability or asset is charged or credited to 'Finance Cost' in Statement of Profit and Loss.

Defined Contribution Plans

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

iii. Share-based Payment Arrangements

The Company recognizes compensation expense relating to share-based payments in net profit using fair-value in accordance with Ind AS 102, Share-based Payment. The estimated fair value of awards is charged to income on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to share options outstanding account. For employees, in respect of Employee Stock Option Scheme, remuneration is considered at the time of exercise of option at a requisite value as defined under Income Tax Act, 1961.

3.13 Borrowing Costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to revenue.

3.14 Income Tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

NOTES

forming part of the Financial Statements for the year ended March 31, 2023

i. Current Tax

Current tax comprises the expected tax payable or recoverable on the taxable income or loss for the year and any adjustment to the tax payable or recoverable in respect of previous years. The amount of current tax payable or recoverable is the best estimate of the tax amount expected to be paid or received. It is measured using tax rates enacted or substantively enacted at the reporting date. Interest income in respect of income tax is shown under Other Income and accounted on receipt basis. Interest expenses and penalties, if any, are included in Current Tax Expense. Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amount and there is an intention to settle the assets and liabilities on net basis.

Minimum Alternative Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

ii. Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, Associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on business plans of the Company and the reversal of temporary differences. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

3.15 Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3.16 Provisions

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date. If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessment of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

3.17 Contingent liabilities and contingent assets (Refer Note 32)

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

3.18 Leases

Effective April 01, 2019, the Company had adopted Ind AS 116 "Leases" by applying the modified retrospective approach. The Company, at the inception of a contract, assesses whether the contract is a lease or not lease.

Company as a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date. The lease payments are discounted using the Company's incremental borrowing rate. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset.

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value and are recognized as an expense on a straight-line basis over the lease term.

Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

3.19 Earning Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax attributable to equity shareholder of the company by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax attributable to equity shareholder of the company as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

4. RECENT INDIAN ACCOUNTING STANDARDS (IND AS)

Ministry of Corporate Affairs (MCA), vide notification dated 31st March, 2023, has made the following amendments to Ind AS which are effective 1st April, 2023:

- Amendments to Ind AS 1, Presentation of Financial Statements where the companies are now required to disclose material accounting policies rather than their significant accounting policies.
- Amendments to Ind AS 8, Accounting policies, Changes in Accounting Estimates and Errors where the definition of 'change in account estimate' has been replaced by revised definition of 'accounting estimate'.
- Amendments to Ind AS 12, Income Taxes where the scope of Initial Recognition Exemption (IRE) has been narrowed down.

Based on preliminary assessment, the Company does not expect these amendments to have any significant impact on its standalone financial statements.

NOTES

forming part of the Financial Statements for the year ended March 31, 2023

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole. The fair value hierarchy is described as under:

- Level 1 hierarchy includes methods and input that use active quoted prices depending upon type of instrument. Management has used closing prices and values of closing NAV's as applicable in case of financial instruments covered under this level.
- Under level 2 the fair value of the financial instruments that are not traded in any active market are determined using appropriate valuation techniques with the use of observable market data without relying much on the estimates that are entity specific. The inputs under this level are always observable.
- In case of level 3 if one or more of the significant inputs are not derived on the basis of observable market data then fair value estimations derived with such inputs are included in level 3.
- The Company follows a policy to recognise transfers between the levels only at the end of reporting period and accordingly there are no transfers between levels during the year.

The information based on the above levels is tabulated here below:

30 RISK MANAGEMENT

Credit Risk Management

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers and investment securities.

Trade Receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Credit risk is managed through credit approvals of customers to which the Company grants credit terms in the normal course of business and their past transactions. Impairment losses in respect of trade receivables is assessed at party level on each reporting date. The Company establishes an expected credit loss allowance for trade receivables based on historical trends. The ageing analysis of trade receivable (gross of provision) has been considered from the date invoice falls due. Following table depicts expected credit loss on age wise trade receivables.

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

The expected rate of return on plan assets is based on expectation of the average long term rate of return expected to prevail over the estimated term of the obligation on the type of the investments assumed to be held by LIC, since the fund is managed by LIC.

The estimate of future salary increases, considered in actuarial valuation, takes into account the inflation, seniority, promotion, increments and other relevant factors, such as supply and demand in the employment market.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements taken as a whole, in forming our opinion thereon and we do not provide a separate opinion on these matters. Apart from 'Basis for Qualified Opinion' We have determined the key audit matters as described below:

Key Audit Matters from Standalone Financial Statements which are also part of the Consolidated Financial Statements:

- A. Determination of fair value of carrying amount of investments
- B. Accounting treatment for contracts with customers
- C. Contingent Liabilities

A. Determination of fair value of carrying amount of investments

Description of key audit matter:

The Holding Company has investments net of provision of Rs. 76,214.15 Lakhs as at March 31, 2023 consisting of Investments in the equity instruments of subsidiaries, third party bonds, mutual funds, other equity instruments etc. and are valued as per Ind AS 109, "Financial instruments". By their nature, these are subjected to various factors related to respective investee entities including but not limited to, economic factors, business dynamics, financial performance etc and impact a fair valuation of these investments. Accordingly, this necessitates a close monitoring by the management of these situations and judgement, based on appropriate evaluation criteria to arrive at a fair value of carrying amounts of these assets as at balance sheet date. Against this background, this matter was of significance in the context of our audit. [Also refer para for basis for qualified opinion in 1A above]

Description of Auditor's response:

We have carried out a comparison between carrying value of investment as at balance sheet date and net-worth as reflected by latest audited financials of investee companies. Wherever carrying amount of investment is more than the net-worth of investee company we have discussed and enquired with the management the process followed by them to identify permanent diminution, if any, in the value of investment and necessary accounting treatment adopted in the books. In addition, management has provided us with the future business plans and how in their business judgement such gap between investment and net-worth of the investee is either compensated with improving business conditions or valuations of such entities. Going forward our regular audit procedures are designed to keep a follow up on outcomes of these management assertions.

B. Accounting treatment for contracts with customers

Description of key audit matter:

Revenue amounting to Rs.27,304.64 Lakhs reported in the Holding Company's financial statements pertains to customer specific contracts and the same are required to satisfy the recognition and measurement criteria as prescribed in IND AS 115, 'Revenue from Contracts with Customers'. Company's revenue is bifurcated into two main parts (a) revenue from software products (IPR based licenses) and (b) revenue from software services. Certain contracts necessarily involve estimations and certain assumptions to be made by the management in determining the quantum of revenue to be recognised in specific period. This inherently creates certain uncertainties and results in complexities in accounting treatment wherein incorrect assumptions and estimates can lead to revenue being recognised in incorrect accounting periods thereby impacting the results. Considering these factors, in the context of our audit this matter was of significance and hence a key audit matter.

Description of Auditor's response:

With a view to verify the reasonableness of the revenue accounting we carried out following procedures:

- a) Understanding the internal control environment for revenue recognition and to test check with a view to verify its operating effectiveness;
- b) Major contracts were read and analysed to verify correctness of accounting of revenue as calculated by the Company's Management;
- c) Discussed with the management process of identification of variable consideration and verified the working on test basis;
- d) Verified the working of unbilled revenue and unearned revenue on test basis;
- e) Performed analytical procedures and obtained reasons for major variances;
- f) Ensured that revenue is recognized in accordance with accounting policy of the Company and Ind AS 115;

C. Contingent liabilities

Description of Key Audit Matter

Contingent liabilities as at March 31, 2023 amounted to Rs. 18,016.27 Lakhs, which mainly include pending income-tax matters and certain legal cases other than those forming basis for our qualified opinion. Contentious income tax matters relate to interpretational differences between the company and various tax authorities, certain matters subjected to internal circulars and guidelines within tax authorities irrespective of stated legal provisions sometimes requiring decision making only by higher tax authorities through appellate procedures resulting in delays in outcome. Given the current legal and operational embargo that the company is facing, it is subjected the multiple litigations by and on the company sub-judice at various courts and levels requiring the Holding Company's Management to exercise significant judgement on these outcomes to determine the liabilities that are contingent in nature. Considering these factors, in the context of our audit, this matter was of significance and hence a key audit matter.

Description of Auditor response

With a view to ensure that disclosures made by the company in Note No. 31 are determined appropriately and prudently, we obtained information of pending income-tax matters from the Company and have obtained/verified the documents including the communication with the departments provided by the Company. In addition, we have carried out comparison with respect to previous year and obtained/reviewed documentation for additional tax matters arisen during the year. Our tax team has carried out discussions with the Holding Company's internal tax team on these cases mainly with respect to issues raised by various tax authorities in their communication to the company to substantiate Holding Company's assessment that there are no present obligations perceived.

With respect to legal cases disclosed to us, we have obtained updates on pending cases from the management and discussed it with the Holding Company's internal legal department, wherever necessary. We carried out a comparison between the latest status and immediate previous status. While comparing, we have tried to ascertain the appropriateness, without being judgemental, of the management judgement exercised in updating to the latest status and have tried to evaluate an impact on such ascertainment of whether the Company liabilities to which it is contingently liable are appropriately ascertained with prudence principle.

Key Audit Matters from other subsidiaries which are also part of the Consolidated Financial Statements:

We reproduce hereunder the 'Key Audit Matters' issued by the independent auditor(s) of a subsidiary viz. National Spot Exchange Limited ('NSEL') vide their audit report on the consolidated financial statements of NSEL, to the extent the same are found significant as per the Guidance issued by the Institute of Chartered Accountants of India, from time to time and which also forms the basis for key audit matters in our audit report on the accompanying Consolidated Financial Statements of the Group:

- (a) As stated in note no. 2.3 of the Consolidated Financial Statements, the Board of Directors of the Company is of the view that in the short term, its main challenge is to recover the money from defaulting members. As explained by the management, the Group is making all out efforts in recovering the amounts from defaulter members for settlement as well as its trade and other receivables. Order issued by Hon'ble High Court for merger of NSEL with Holding company has been set aside by Hon'ble Supreme court vide order dated 30th April, 2019. Holding company has committed to continue the financial support to NSEL by way of infusion of capital into NSEL and on the basis of such support, these financial statements for the year ended 31 March, 2023 are prepared on going concern basis. We have relied on the above mentioned explanations and information given by the Management.
- (b) The Management has assessed the impact of the outbreak of COVID-19 on the day to day business operations of the Company, based on the assessment management concludes that no adjustments are required in the current financial year.

Our opinion is not qualified in respect of these matters."

Based on the additional procedures performed by us, we have not come across any instance requiring material adjustment to the consolidated financial statement having pervasive impact in the context of an audit opinion on these financial statements.

The respective Board of Directors of the companies included in the Group and its associate are responsible for overseeing the financial reporting process of each Company.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- A. Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- B. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- C. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

INDEPENDENT AUDITOR'S REPORT

To the members of 63 moons technologies limited

- D. Conclude on the appropriateness of management's use of the going concern basis of accounting in preparation of Consolidated Financial Statements and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- E. Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- F. Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group and its associate to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph (f) under the heading, "Report on Other legal and Regulatory Requirements" of our report on even date:

REPORT ON THE INTERNAL FINANCIAL CONTROLS

Under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

OPINION

We have audited the Internal Financial Controls over Financial Reporting of 63 moons technologies limited (hereinafter referred as "the Holding Company") and its subsidiary companies incorporated in India (the Holding Company and its subsidiaries together referred to as "the Group") which includes its share of profit/(loss) in its associate, as of March 31, 2023 in conjunction with our audit of the Consolidated Financial Statements of the Holding Company as of and for the year ended on that date.

In our opinion and to the best of our information and according to the explanations given to us and based on consideration of reports of other auditors referred to in other matters paragraph below, the Group and its associate has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ('ICAI').

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Company's Management and Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Group and its associate, internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable, to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

OTHER MATTERS

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to ten subsidiaries and one associate, which are companies incorporated in India, is solely based on corresponding reports of the auditors of such Companies.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail,

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph (f) under the heading, "Report on Other legal and Regulatory Requirements" of our report on even date:

accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

3 PRINCIPLES OF CONSOLIDATION

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS-110) "Consolidated Financial Statements", and Indian Accounting Standards (Ind AS-28) "Investments in Associates and Joint Ventures" as notified under the Companies (Accounts) Rules, 2014 on the following basis:

Group consolidates entities which it owns or controls. The consolidated financial statements comprise the financial statements of the Company, its subsidiaries and its associate company as disclosed below. Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The financial statements of the Group subsidiary companies are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the company, are excluded.

Associates are entities over which the Group has significant influence but not control. Investments in associates are accounted for using the equity method of accounting. The investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the acquisition date. The Group's investment in associates includes goodwill identified on acquisition.

I. The subsidiary and Associate companies considered in the presentation of the consolidated financial statements are:

4 SIGNIFICANT ACCOUNTING POLICIES

The Group has consistently applied the following accounting policies to all periods presented in these financial statements.

4.1 Revenue

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration expected to receive in exchange for those products or services. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. Revenue also excludes taxes collected from customers.

The revenue from the sale of software products (IPR based licenses) is recognised on delivery/granting of right to use. In respect of service contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized over time. Revenue from fixed price service contracts is recognised based on acts performed as specified in the contracts over the contract period where performance of several acts is required over that period. In the case of time and material contracts, revenue is recognised on the basis of hours completed and material used. Revenue from annual maintenance contracts, lease of licenses, IT infrastructure sharing income and Shared Business Support Services is recognised proportionately over the period in which the services are rendered/licenses is leased. Revenue from sale of goods is recognised on transfer of control over the goods to the customer. Sales are recorded net of returns (if any), trade discounts, rebates, and goods and service tax. Projected losses, if any, are provided in entirety as per Ind AS based on management's current estimates of cost

NOTES

forming part of the consolidated financial statements for the year ended March 31, 2023

to completion arrived at on the basis of technical assessment of time and effort required and estimates of future expenditure.

Revenues in excess of invoicing are classified as contract assets (which are referred to as unbilled revenue). Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms. Invoicing in excess of revenues are classified as contract liabilities (which are referred to as unearned revenues).

Income from Procurement service charges are levied on value of procurement and are recognised on accrual basis on completion of procurement and processing activity. Commitment fees are recognised upfront as per the terms of agreement with clients.

In case of exchange related business, Admission fees (non-refundable) to the exchange collected from new members for joining the exchange are recognised when the membership is approved. Advances against membership application are only recognised as income when the application has been approved. Annual subscription fees (non-refundable) are collected from members and accrued annually. Transaction fees are charged to members based on the volume of transactions entered into by the members through the exchange. These are accrued when orders placed by members on the network are matched and confirmed.

Service charges include income from various services viz data fee and message services, revenue sharing income, coaching and training fees, internet telecommunication charges, which are recognised as and when services are rendered.

Revenue is stated net of returns, goods and service tax (GST), wherever applicable.

Unbilled revenue represents value of services performed in accordance with the contract terms but not billed.

4.2 Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

4.3 Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established.

4.4 Investment property rental income

Rental income from investment property is recognised as revenue on a straight-line basis over the term of the lease and presented as other income. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease.

4.5 Property, plant and equipment

i. Recognition and measurement

Property, Plant and Equipment (PPE) are carried at cost less accumulated depreciation and any accumulated impairment losses, if any.

The cost of PPE comprises its purchase price including import duties and non-refundable purchase taxes after deducting trade discounts and rebates and any costs directly attributable to bring in the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

PPE which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress"

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset form part of the cost of the asset. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of an asset (calculated as the difference between the net disposal proceeds and the carrying amount of the assets) is recognised in Statement of Profit & Loss.

ii. Subsequent expenditure

Subsequent expenditure relating to PPE is capitalised only when it is probable that future economic benefits with these will flow to the Group and cost of the item can be measured reliably. Repairs & maintenance costs are recognised in Statement of Profit and Loss as and when incurred.

iii. Depreciation

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives. Leased assets and leasehold improvements are depreciated over the shorter of the lease term and their useful lives.

NOTES

forming part of the consolidated financial statements for the year ended March 31, 2023

Depreciation methods, useful lives and residual values are reviewed annually and the effects of any changes in estimates are accounted for on a prospective basis.

Freehold Land is not depreciated. For others, depreciation has been provided on the basis of estimated useful life as follows.

Assets	Useful life
Office Equipment	2 to 5 Years
Electrical Installations	10 Years
Computer Hardware	3 to 6 Years
Furniture and Fixtures	5 to 10 Years
Vehicles	5 Years
Building	58 years
Leasehold improvements	Over lease period (2 to 5 years)

Assets costing upto ₹ 5,000/- are fully depreciated in the year of acquisition.

vi. Reclassification to investment property

When the uses of a property changes from owner-occupied to investment property, the property is reclassified accordingly.

4.6 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment, if any. The cost of intangible assets comprises its purchase price including import duties and non-refundable purchase taxes after deducting trade discounts and rebates and any costs directly attributable to bring in use. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. Research costs are expensed as incurred. Amortization methods and useful lives are reviewed annually and the effects of any changes in estimates are accounted for on a prospective basis.

The Group amortises intangible assets with using the straight-line method over the estimated useful life as follows:

- Patents, copyright and other rights - 8 years
- Computer software - 4 to 6 years

4.7 Investment property

Investment property is measured at cost less impairment, if any. Any gain or loss on disposal of investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in statement of Profit or Loss. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated using the straight-line method over their estimated useful lives. Fair value is calculated using discounted cash flow method and other relevant factors, if any. Useful life of the investment property is considered as 58 year or lease period whichever is lower.

4.8 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments. The classification of financial instruments depends on the objective of the business model for which it is held. Management determines the classification of its financial instruments at recognition.

Classification	Initial recognition	Subsequent recognition
Non-derivative financial instruments		
a) Financial assets at amortised cost: if it is held within business model where purpose is to hold asset for contractual cash flows that are solely payments of principal and interest on principal outstanding	At fair value including directly attributable transaction costs	Subsequently carried at amortised cost using effective interest rate method less any impairment loss.
b) Financial assets at fair value through other comprehensive income: if it is held within business model where purpose is to hold asset for contractual cash flows that are solely payments of principal and interest on principal outstanding and also selling financial assets.	At fair value including directly attributable transaction costs	All changes in value excluding interest are recognised in OCI. Interest is recognised on effective interest rate method in Statement of Profit & Loss.

NOTES

forming part of the consolidated financial statements for the year ended March 31, 2023

Classification	Initial recognition	Subsequent recognition
c) Financial assets at fair value through statement of profit and loss : if financial asset is not classified in any of the above categories	At fair value excluding directly attributable transaction costs. Transaction costs are recognised in Statement of Profit and Loss.	Fair valued at each subsequent reporting date.
d) (i) Trade Receivable (Those do not contain significant financing component.) (ii) Loans	At transaction price. At fair value.	Subsequently held at amortised cost, using the effective interest rate method, net of any expected credit loss.
e) Other Equity investments	At fair value.	Any changes through Statement of Profit and Loss.
f) Financial liabilities	At fair value including directly attributable transaction costs	At amortised cost : using effective interest method except certain items.
Derivative financial instruments		
Financial assets or financial liabilities	At fair value	At fair value through statement of profit and loss : if financial assets or financial liabilities are not designated as hedges.
Share capital		
	Ordinary shares classified as equity.	Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

Financial assets are reclassified subsequent to their recognition if and in the period the Group changes its business model for managing financial assets.

Derecognition of financial instruments:

A financial asset is derecognised by the Company only when:

- Contractual right to receive cash flows from the assets expires; or
- the Company has transferred the rights to receive cash flows from the financial asset; or
- if the Company has not retained control of the financial asset; or
- the Company has transferred substantially all risks and rewards of ownership of the financial asset.

Any gain or loss on derecognition is recognised in statement of profit and loss including cumulative gain or loss in case of financial assets subsequently valued at fair value through other comprehensive income. In case of financial assets subsequently fair valued through profit or loss, gain or loss is presented on a net basis.

A financial liability (or a part of a financial liability) is derecognised when the obligation specified in the contract is discharged or cancelled or expires. Any gain or loss on derecognition is recognised in statement of profit and loss.

4.9 Measurement of Fair Value

The Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The Group regularly reviews significant unobservable inputs and valuation adjustments. In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liabilities and the level of fair value hierarchy.

NOTES

forming part of the consolidated financial statements for the year ended March 31, 2023

4.10 Impairment

i. Financial assets:

For the financial assets which are not fair valued through profit or loss, the Group tests loss allowances using the expected credit loss (ECL) model and recognises, if any.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

ii. Non-financial assets:

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then asset's / cash generating unit (CGU)'s recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is estimated. An impairment loss is recognised if the carrying amount of an asset / CGU exceeds its recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized

4.11 Foreign Currency transactions

Transactions in foreign currencies are translated into the functional currency of the Group at the exchange rates at the dates of the transactions or at rates that closely approximate the rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency is translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction and are not retranslated. Foreign currency differences are generally recognised in profit or loss.

Foreign operations

The translation of the financial statements of non-integral foreign operations (including branches) is accounted for as under:

- i. All revenues and expenses are translated at average rate.
- ii. All monetary and non-monetary assets and liabilities are translated at the rate prevailing on the balance sheet date.
- iii. Resulting exchange difference is accumulated in Foreign Currency Translation Reserve Account until the disposal of the net investment in the said non integral foreign operation.
- iv. Foreign subsidiaries (non-integral foreign operations) financial statements are prepared in the currency of country in which they are domiciled except when another currency is considered appropriate based on revenue and cost stream.

4.12 Employee benefits

i. Short-term obligations

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees is recognised as an expense during the period when the employee renders those services.

ii. Other long-term employee benefit obligations

Compensated absences

The Group has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date and recognised in Statement of Profit and Loss. Expense on non-accumulating compensated absences is recognized in the year in which the absences occur.

Defined Benefit Plan

The Group provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated at each reporting date by actuaries using the projected unit credit method. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are

NOTES

forming part of the consolidated financial statements for the year ended March 31, 2023

recognised, net of tax impact, in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost. The amount of net interest expense calculated by applying the liability discount rate to the net defined liability or asset is charged or credited to 'Finance Cost' in Statement of Profit and Loss.

Defined contribution plans

The Group pays provident fund contributions to publicly administered provident funds as per local regulations. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

iii. Share-based payment arrangements

The Group recognizes compensation expense relating to share-based payments in net profit using fair-value in accordance with Ind AS 102, Share-Based Payment. The estimated fair value of awards is charged to income on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to share options outstanding account. For employees, in respect of Employee Stock Option Scheme, remuneration is considered at the time of exercise of option at a perquisite value as defined under Income Tax Act, 1961.

4.13 Borrowing costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to revenue.

4.14 Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

i. Current tax

Current tax comprises the expected tax payable or recoverable on the taxable income or loss for the year and any adjustment to the tax payable or recoverable in respect of previous years. The amount of current tax payable or recoverable is the best estimate of the tax amount expected to be paid or received. It is measured using tax rates enacted or substantively enacted at the reporting date. Interest income in respect of income tax is shown under Other Income and accounted on receipt basis, interest expenses and penalties, if any, are included in current tax expense. Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amount and there is an intention to settle the assets and liabilities on net basis.

Minimum Alternative Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss. The Group reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Group will pay normal income tax during the specified period.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, Associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on business plans of the Group and the reversal of temporary differences.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which

NOTES

forming part of the consolidated financial statements for the year ended March 31, 2023

they can be used. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

4.15 Inventories

Inventories are valued at lower of cost on First in First out (FIFO) basis or net realizable value. Cost comprises of cost of purchase and other costs incurred in bringing the inventories to their respective present location and condition. In case of defective and obsolete items, due allowance is estimated and provided for wherever necessary

4.16 Operating Cycle

Based on the nature of products / activities of the Group and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

4.17 Provisions

A provision is recognised when the Group has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date. If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessment of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

4.18 Contingent liabilities and contingent assets, if any, are disclosed in the notes to accounts. (Refer note 31)

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. Claims against the Group, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

4.19 Leases

Effective April 01, 2019, the Company had adopted Ind AS 116 "Leases" by applying the modified retrospective approach. The Company, at the inception of a contract, assesses whether the contract is a lease or not lease.

Company as a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right -of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight -line method from the commencement date over the shorter of lease term or useful life of right -of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right -of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date discounted using the incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value and are recognized as an expense on a straight-line basis over the lease term.

Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

4.20 Earning Per Share

"Basic earnings per share" is computed by dividing the profit / (loss) after tax attributable to equity shareholder of the company by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax attributable to equity shareholder of the company as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

5 Recent Indian Accounting standards (Ind AS)

Ministry of Corporate Affairs (MCA), vide notification dated 31st March, 2023, has made the following amendments to Ind AS which are effective 1st April, 2023:

- a) Amendments to Ind AS 1, Presentation of Financial Statements where the companies are now required to disclose material accounting policies rather than their significant accounting policies.
- b) Amendments to Ind AS 8, Accounting policies, Changes in Accounting Estimates and Errors where the definition of 'change in account estimate' has been replaced by revised definition of 'accounting estimate'.
- c) Amendments to Ind AS 12, Income Taxes where the scope of Initial Recognition Exemption (IRE) has been narrowed down.

Based on preliminary assessment, the Group does not expect these amendments to have any significant impact on its consolidated financial statements.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole. The fair value hierarchy is described as under:

- Level 1 hierarchy includes methods and input that use active quoted prices depending upon type of instrument. Management has used closing prices and values of closing NAV's as applicable in case of financial instruments covered under this level.
- Under level 2 the fair value of the financial instruments that are not traded in any active market are determined using appropriate valuation techniques with the use of observable market data without relying much on the estimates that are entity specific. The inputs under this level are always observable.
- In case of level 3 if one or more of the significant inputs are not derived on the basis of observable market data then fair value estimations derived with such inputs are included in level 3.
- The Company follows a policy to recognise transfers between the levels only at the end of reporting period and accordingly there are no transfers between levels during the year.

40 RISK MANAGEMENT**Credit risk management**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers and investment securities.

Trade receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Credit risk is managed through credit approvals of customers to which the Group grants credit terms in the normal course of business and their past transactions. Impairment losses in respect of trade receivables are assessed at party level on each reporting date. The Group establishes an expected credit loss allowance for trade receivables based on historical trends.

Financial instruments and bank balances:

The Group limits its exposure to credit risk by generally investing in securities with a good credit rating. The credit rating is being reviewed by the Group periodically. Balances with banks are subject to low credit risks due to good credit ratings assigned to these bank

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Typically the Company ensures that it has sufficient cash on demand to meet expected operational expenses, servicing of financial obligations.

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2023 and March 31, 2022:

		(₹ in lakhs)	
Period (in days)	Trade Payable	Period (in days)	Trade Payable
As at 31.03.2023		As at 31.03.2022	
Upto 180 days	833.73	Upto 180 days	1,123.73
181 – 365 days	-	181 – 365 days	197.32
More than 365 days	1,543.34	More than 365 days	1,605.51

Foreign Currency risk

The Group's exchange risk arises primarily from its foreign currency borrowings, and balances in overseas bank accounts (in U.S. dollars). The exchange rate between the Indian rupee and US dollars has changed substantially in recent periods and may continue to fluctuate in the future.

As at March 31, 2023, the net unhedged exposure to the Group on holding financial assets (trade receivable and capital advances) and liabilities (trade payables and capital creditors) other than in their functional currency amounted to rupees ₹ NIL payable (March 31, 2022 ₹ NIL).

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates was related primarily to the Group's debt obligations with floating interest rates. To mitigate the interest rate risk, the Group had entered into interest rate swap contracts for covering partial borrowing to fixed rate of interest from floating rate. Group investments in bank deposits are normally for one year fixed rate interest and hence subject to repricing risk on maturity.

Price Risk

The Group is mainly exposed to the price risk due to its investment in debt mutual funds. The price risk arises due to uncertainties about the future market values of these investments.

The Group has laid policies and guidelines which it adheres to in order to minimise price risk arising from investments in debt mutual funds.

43 The Parent Company has investments of ₹ 20,000 Lakhs (face value) in Secured Non-Convertible Debentures issued by IL&FS Transportation Networks Ltd (ITNL) (subsidiary of Infrastructure Leasing & Finance Ltd – IL&FS) which were rated “A” by the rating agencies at the time of purchase and was also secured by way of charge on certain assets of ITNL. In earlier years, ITNL has defaulted in payment of interest and rating agencies have revised the credit ratings to the lowest category ‘D’ i.e. default. National Company Law Tribunal (NCLT) has superseded the then existing Board of Directors of the IL&FS and the new board was appointed on the recommendation application of the Union of India. Resolution process has been initiated under Companies Act by the New Board under the supervision of National Company Law Appellate Tribunal (NCLAT), in addition to various investigations and legal proceedings. The Company has filed its claim for the bonds held and also taken various measures including filing legal Civil Suit, cases against specified parties at appropriate forum. The outcomes of legal matters are pending. The new Board of IL&FS from time to time submitted various progress reports including the resolution framework for the IL&FS Group to Hon’ble NCLAT. During the resolution process, Hon’ble NCLAT has approved the Revised Distribution Framework proposed by the New Board for distribution of cash received in financial bid amount / termination amount / settlement amount or by way of units created by InvIT. According to the estimated distribution to the secured creditors of ITNL provided by the New Board of IL&FS based on the estimated realization value and various progress of the resolution process time to time, without prejudice to its rights, the Company has impaired the investment for the expected credit loss by ₹ 7,500 lakhs till March 31, 2022 and further impaired / written off the investment by ₹ 4,136.55 lakhs during the current year.

44 The Parent Company had investments of ₹ 20,000 Lakhs (face value) Secured Redeemable, Non- Convertible Debentures of Dewan Housing Finance Corporation Ltd (DHFL) which were rated AAA by the rating agencies and secured by way of floating charge on receivables. In earlier years, after default by DHFL, RBI filed corporate insolvency resolution process (CIRP) against DHFL in NCLT, Mumbai. As a result of CIRP process, the Company has received payout of ₹ 4,395.28 lakhs and 6.75% Non-convertible Debentures of PIRAMAL Capital & Housing Finance Ltd (PCHFL) amounting to ₹ 5,287.82 lakhs during the previous year. Without prejudice to its rights, the Company has made necessary provisions in the books of accounts during the previous year and earlier years and continues to pursue legal remedies available to recover its dues. The Company is also pursuing its application filed for the recoveries of avoidance applications filed by DHFL Administrator which should be for the sole benefit of the creditors of DHFL. The application was rejected by National Company Law Tribunal (NCLT) but was allowed by National Company Law Appellate Tribunal (NCLAT) and directed that the Resolution Plan be sent back to Committee of Creditors for reconsideration. The application is pending at Hon’ble Supreme Court which has granted stay on the order of NCLAT. Subsequent to the approval to resolution plan, shares of DHFL have been delisted, the issued equity share capital of DHFL existing at that time and held by shareholders of DHFL has been entirely cancelled and extinguished; and upon completion of capital reduction, PCHFL / Successful Resolution Applicant has merged into DHFL by way of reverse merger. Considering the integration of erstwhile DHFL business with PCHFL is completed and seems irreversible, without prejudice to its rights, the balance amount receivable towards NCDs of DHFL Rs. 10208.28 lakhs have been impaired / written off during the year, for which provision had already been made in earlier years.

45 The Parent Company has invested in 9 % Yes Bank Perpetual Additional Tier 1 (AT-1) Bonds, amounting to Rs. 30,000 Lakhs (Face Value) which were rated AA by rating agencies. Despite this, Administrator of Yes Bank vide letter dated March 14, 2020, informed the stock exchanges that the all AT-1 bonds having total value of Rs. 8415 crores needed to be fully written off, which led to legal action by the trustees of the issue and the company. Various updates and relevant notes relating to NSEL and its subsidiary companies: (Note No 53 to 69)

53 SETTLEMENT GUARANTEE FUND

(i) SGF-MC balance as at March 31, 2023

NSEL has a separate Settlement Guarantee Fund, which is created out of Members' Contribution (SGF-MC) in respect of the activities carried out on the spot trading in various contracts on Exchange. The members are required to contribute to the fund in the form of security deposit and interest free margin money in the form of cash and non-cash, which forms part of the SGF-MC. The margin money was refundable, subject to adjustments, if any and exposure of members. The cash margin money forming part of SGF-MC was ₹ 3,746.09 lakhs (Previous year ₹ 3,746.09 lakhs) (included in other current liabilities). NSEL had also collected non cash portion of the SGF-MC comprising of collaterals such as bank guarantees, securities and fixed deposits receipts received from the members and the same was refunded to the members. Balance was such non cash margin with NSEL as at March 31,2023 was amounting to ₹ Nil (Previous year ₹ Nil).

The composition of SGF-MC as on March 31, 2023 was as under.

	(₹ in lakhs)	
	As at 31.03.2023	As at 31.03.2022
INITIAL MARGIN		
Cash Margin	3,746.09	3,746.09
Non-Cash Margin - FDR	-	-
Non-Cash Margin - Bank Guarantee	-	-
TOTAL	3,746.09	3,746.09

It's a Practice in India among the Stock and Commodity Exchanges that SGF-MC consists of aforesaid two components viz. cash and non-cash, collected from the members as security deposit and margin money. Cash Component shall form part of liabilities in Balance Sheet. Non-cash component is disclosed by way of "Notes to Accounts."

(ii) The SGF-MC currently shows a net outstanding amount of ₹ 3,746.09 lakhs (Previous year ₹ 3,746.09 lakhs) which is pertaining to the existing non-defaulting clearing Members. While the exchange has taken many legal, regulatory and commercial measures against the defaulters, it is not clear how much money would be eventually recovered and by when, as the entire process is sub-judice. In case the Exchange fails to secure the balance money or there is undue delay in recovery then the exchange would as per the bye laws call for the balance amount as may be considered appropriate to be recovered from all the non-defaulting clearing members as per its bye law number 12.9.2 and 12.10 besides other applicable bye laws for settlement of claims. However, this decision would be taken post the adjudication of pending legal cases wherein this subject matter is being adjudicated or at an appropriate time when considered suitable by NSEL.

In order to centralize all these Execution at one place i.e. Mumbai. NSEL has filed Writ Petition (Civil) No. 995 of 2019 before the Supreme Court of India. The Hon'ble Supreme Court of India vide Order dated 04 May 2022 was pleased to constitute a High-Powered Supreme Court Committee (SCC) under Article 142 of the Constitution of India to execute the recovery from NSEL defaulters and transferred all execution proceeding against defaulters to the Hon'ble SCC. Accordingly, all execution proceeding pending before various courts have been transferred to SCC.

Regular hearings are being conducted by the SCC for execution proceedings of the decrees/orders/arbitral awards obtained by NSEL against the defaulters. Committee is pressing the Defaulters / Judgement Debtor and Garnishees thereof to complete their pleadings so that substantive orders can be passed. In several matters pleadings are completed and Committee has decided on the objections raised by the Judgement Debtors e.g., objections of all the Judgment Debtors in Mohan India matter are dismissed. Further, SCC has attached properties of several Judgement Debtors and ex-parte identified / traced by the agencies. - d) As on today 31 complaints are pending against 11 defaulter members filed by NSEL in the Metropolitan Magistrate Courts in Mumbai under Section 138 of the Negotiable instruments Act, 1881 for dishonor of their cheques amounting to ₹ 2,776.06 crores.

It is pertinent to note here that defaulters namely, P. D A groprocessors Pvt Ltd., Lotus Refineries Pvt. Ltd., Mohan India Pvt Ltd. and Metkore Alloy & Industries Ltd. filed Revision Applications challenging the issue process order passed by the Metropolitan Magistrate Courts, which were dismissed by Hon'ble Sessions Court. The rejection of Revision Applications were challenged in the Hon'ble Bombay High Court which also came to dismissed. Further P.D. Agroprocessors Pvt Ltd challenged the dismissal Order of the Hon'ble Bombay High Court in the Hon'ble Supreme Court which also came to dismissed. N. K. Proteins Pvt. Ltd. filed Revision Applications challenging the issue process order passed by the Metropolitan Magistrate Courts, which were allowed. NSEL challenged the sessions court order in the Hon'ble Bombay High Court which was allowed and restored the Complaints. N.K. Proteins Challenged the order of the Hon'ble Bombay High Court in the Hon'ble Supreme Court which was dismissed.

Further it is pertinent to note that Metropolitan Magistrate Court vide order dated 14.10.2022 in CC.No.8452/SS/2015 convicted Ramesh Nagpal Sole Proprietor of Shree Radhey Trading Co. for 1-year simple imprisonment and with a fine of Rs. 6,213.81 Lakhs; in CC.No.9359/SS/2016 has convicted Ramesh Nagpal for 1-year simple imprisonment and with a fine of Rs. 354.00 Lakhs and in CC.No.9360/SS/2016 has convicted Ramesh Nagpal for 1-year simple imprisonment and with a fine of Rs. 350.00 Lakhs. The said conviction order clearly records that the SRTC failed to prove that SRTC's letter dated 01.08.2013 admitting to its liability towards NSEL was obtained by fraud or coercion and the said defence was clearly an afterthought. Against the aforesaid conviction, the SRTC filed Cri. Appeal Nos.701 of 2022, 702 of 2022 and 703 of 2022 in the Hon'ble Sessions Court. The SRTC also filed Application in the said Cri. Appeals for suspension of sentence which were allowed by Hon'ble Sessions Court vide orders dated 04.01.2023 on a condition that SRTC deposits minimum 20% of the amount in the trial court.

Further it is pertinent to note that Metropolitan Magistrate Court vide order dated 10.11.2022 in CC.No. 5080/SS/2016 convicted Vimladevi Agrotech Ltd., Chandra Mohan Singhal, Varun Gupta, and Bittal Prasad Agarwal, further Chandra Mohan Singhal, Varun Gupta, Bittal Prasad Agarwal were sentenced to 1-year simple imprisonment and Chandra Mohan Singhal, Varun Gupta, Bittal Prasad Agarwal and Vimladevi Agrotech Ltd. jointly and severally are sentenced to pay fine of Rs. 154.40 Lakhs against the aforesaid conviction, the Vimladevi Agrotech Ltd. filed Cri. - e) Insolvency Resolution proceedings under The Insolvency and Bankruptcy Code, 2016 had been initiated against various defaulting members such as Namdhari Food International Pvt. Ltd., Metkore Alloys Ltd. and various sister concerns of

NOTES

the defaulter members such as Dunar Foods Ltd., Sri Vasavi Industries Ltd., Lakshmi Energy etc. by their respective Financial Creditors. NSEL is taking all steps to secure its claims. Due to unsuccessful resolution plan, Namdhari and Metkore has gone into liquidation now and the Claim of NSEL is accepted by the Liquidator. In case of Sri Vasavi Industries. NSEL filed its claim with the IRP for ₹ 63 Crore. The claim was admitted by the IRP. Resolution plan was approved and as per resolution plan NSEL received ₹15.97 lakhs from the successful Resolution Applicant through IRP under the provisions of IBC. NSEL has filed proceedings to claim the remaining amounts from the Directors of Sri Vasavi before the Hon'ble Bombay High Court.

- f) Furthermore, in case of Dunar Foods Ltd. sister concern of PD Agro. Dunar Foods Ltd went to CIRP process and finally Resolution Plan was approved by NCLT. It is pertinent to note that NSEL at each stage of CIRP Process pursued its claim till Approval of Resolution Plan and had challenged various orders of NCLT till Hon'ble Supreme Court which were rejected. Further it be noted that NSEL could file Claim only as Other Creditor in the CIRP Proceedings of Dunar Foods and in the water fall mechanism for distribution of money NSEL claim would always be considered after Financial Creditors and Operational Creditors. and Resolution Plan approved by NCLT was only for Rs. 8,710 .00 Lakhs thus NSEL would have recovered negligible amounts in the CIRP proceedings of Dunar Foods. Knowing this fact, NSEL still pursued the claim with all sincerity and vigour.
- g) NSEL has also initiated Arbitration proceedings against 2 debtors for recovery, the details of which are as under:
- i. Ayush Sales Pvt. Ltd.: NSEL had initiated Arbitration Proceeding for recovery of Rs. 2,567.44 Lakhs a before Sole Arbitrator Mr. Mehernosh Humaranwal. The said order dated August 22, 2019 is challenged by the State of Maharashtra before the Hon'ble Supreme Court. The Hon'ble Supreme Court has set aside the order of the Bombay High Court.

63 IN CASE OF NSEL:

- a) Director, FIU-India had issued a Show Cause Notice alleging that NSEL is 'deemed intermediary' and therefore a 'reporting entity' under PMLA and hence was required to comply with the provisions of the Act. NSEL reiterated the position along with the exemption granted under section 27 of Forward Contracts (Regulation) Act. NSEL also stated in its replies that the term 'deemed intermediary' is not mentioned and is arbitrary. However, Director-FIU has passed an Order on 4 November 2015, imposing a total penalty of ₹ 1.44 Crores on NSEL for not getting registered as a reporting entity and allegedly not furnishing reports and consequently not appointing Principal Officer as prescribed under the Prevention of Money-Laundering Act (PMLA). NSEL has filed an appeal under Section 26 of PMLA challenging the above Order.

The Company filed an appeal No. FPA-PMLA-1168/DLI/2015 under the PMLA challenging the above Order dated 04.11.2015. The Appellate Tribunal, PMLA at New Delhi vide its Order dated 27.06.2017 disposed of the Appeal by modifying the part of the order in relation to the maximum penalty and reduced the penalty from ₹ 1 lakhs for each failure to ₹ 0.15 lakhs for each failure. NSEL as per interim order dated 31.08.2016 of Appellate Tribunal had deposited an amount of ₹ 25 lakhs with the Director, FIU-India. The Tribunal further ordered that after deducting the penalty as per the aforesaid order, remaining amount be refunded to NSEL.

Thereafter FIU-India had filed Criminal Appeal No. 885 of 2017 in the Hon'ble Delhi High Court challenging the Judgment dated 27.06.2017 passed by the Appellate Tribunal, PMLA, New Delhi and the Hon'ble Delhi High Court was pleased to return the appeal to be presented in the Competent jurisdiction as per Section 42 of the PMLA. FIU-India has filed Criminal Appeal No. 1268 of 2019 in the Hon'ble High Court of Bombay and the matter is pending admission.

NSEL has also filed Criminal Appeal no. 1019 of 2019 before the Hon'ble High Court of Bombay under sec 42 of PMLA Act against the order dated 27 June 2017 passed by Appellate Tribunal, at New Delhi wherein the NSEL is held to be in non-compliance with certain reporting obligations as defined under sec 2(1)(n) under PMLA Act and the matter is pending admission.

Since amount of penalty is not determinable at this stage. Appeal by FIU and Company is pending before Hon'ble Bombay High Court and the Company is confident of getting favorable order in its favour. Hence Company has not made any provision in the books of account and shown as contingent liability.

- b) NSEL has received summon dated 4 April, 2016 from the Superintendent (Anti-evasion) Service Tax-V, Mumbai calling upon the company to submit certain documents/ records which is looked by NSEL and necessary representation is being processed. 64 IN THE CASE OF IBMA SALES TAX AND INCOME TAX LIABILITIES/COMPLIANCES:

a. Sales Tax:

I. Where IBMA has acted as an agent for members/clients:

IBMA had obtained sales tax registrations in seventeen states in India. IBMA had acted as an agent for few of selling and buying members on NSEL exchange platform in respective states as "dealer". Such transactions were carried out for principals (member/clients) by IBMA. Some of the state sales tax authorities are in advances stage or have completed assessments of such transactions. In some cases, input tax credits (ITC) on purchases have been denied on account of following reasons:

- i. Non- payment of Sales Tax (VAT/CST) by selling party.
- ii. Non-filing of sales tax (VAT /CST) returns by selling party.
- iii. Non-matching of sales tax amount with the Sales Tax returns filed by selling party.
- iv. Lack of confirmation of sales tax payment by selling party etc.

As a fall out of above, demands have been raised against IBMA by several state government sales tax authorities. All such demands are contested at various forums. In all such cases, IBMA has taken steps to ensure that ITC on purchases are not denied and credits are promptly given to IBMA.

In cases where the selling dealer has collected tax, but not deposited to state treasury, IBMA has requested administration to recover from the selling dealer/ not to hold IBMA responsible for the same. In cases where confirmation of proof of payment by selling party is concerned, IBMA is using its resources to seek the same and furnish before the authorities.

NOTES

forming part of the consolidated financial statements for the year ended March 31, 2023

As per the legal advice received by IBMA, such liabilities, if any, which arises for acting as an agent, primarily pertains to the principal for whom IBMA had acted as an agent. The liability of IBMA qua such demands shall be to the sales tax registering authorities shall be total, if IBMA is held responsible to make such payments, ultimately. In all such cases, at present IBMA has treated such liabilities as contingent liabilities in its books of accounts, pending arriving at final liability on assessment and pending recovery of such amounts from principals.

II. Where IBMA has carried out own trading activities:

In case of denial of input tax credit (ITC) on all transactions where purchases were made by IBMA, on its account, such liabilities on sales tax account is considered as "contingent liabilities" till assessment is completed. In case of demands, which are disputed and where the liability of payment of tax is not on IBMA, the same is disclosed for as contingent liability.

The summary of such demands and their treatment in the books of accounts of the company are as under

By Order of the Board of Directors

Place : Mumbai
Date : August 08, 2023

Hariraj Chouhan
Sr. Vice President & Company Secretary

EXPLANATORY STATEMENT PURSUANT TO REGULATION 36 OF SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015 AND SECTION 102 OF THE COMPANIES ACT, 2013.

Item No. 4:

Pursuant to Regulation 17(1A) of the SEBI (Listing Obligations And Disclosure Requirements) Regulations, 2015, no listed entity can continue the Directorship of any person as a Non-Executive Director who has attained the age of 75 (Seventy-Five) years unless a special resolution is passed to that effect and justification thereof is given in the explanatory statement annexed to the notice for appointing such a person. Shareholders are informed that Mr. Venkat Chary (DIN: 00273036), Non-Executive, Non-Independent Director, (aged 83 years) retires by rotation at the ensuing AGM. Since he is over 75 years of age, his continuation as a Non-Executive Director requires approval of shareholders by way of special resolution. A brief justification for his re-appointment as Non-Executive Director on the Board of the Company is appended below for the consideration of the shareholders.

Mr. Venkat Chary (IAS, Retd.) (DIN: 00273036), aged 83 years, has been associated with the Company since October 2013. The Shareholders at the AGM held in September 2014 appointed Mr. Chary as Independent Director for a tenure of 5 years. Subsequently, at the AGM held in September 2019, he was re-appointed as Independent Director for a second term of 2 years which ended on September 22, 2021.

Pursuant to the provisions of section 149(11) of the Companies Act, 2013, an Independent Director cannot hold office for more than two consecutive terms unless a cooling period of three years is completed after the completion of the second term. However, considering the business needs and the crucial phase through which the Company was passing, ongoing legal cases effecting the operations of the Company etc, the Board of Directors on the recommendation of the Nomination & Remuneration Committee (NRC) decided that it would be in the best interest of the Company to have Mr. Chary continue on the Board of the Company and thus appointed him as Non-Executive, Non-Independent Director at its meeting held on August 12, 2021.

The Nomination and Remuneration Committee in recommending his re-appointment and evaluating his contribution to the Company decided that his continuance as a Director would be of immense benefit to the Company.

Except for Mr. Chary, none of the other Directors, Key Managerial Personnel of the Company or their relatives, are in any way, concerned or interested, financially or otherwise, in the resolution set out in item no. 4 above. The Board recommends the special resolution set out in Item No. 4 of the Notice for the approval of the members.

Item No. 5:

To comply with the provisions of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Listing Regulations) w.r.t. number of Independent Directors on the Board, the Board of Directors at its meeting held on August 12, 2021, recommended to the Shareholders the appointment of Mr. Kanekal Chandrasekhar (DIN: 06861358) as Independent Director for a term of two years commencing from September 18, 2021 till September 17, 2023. The Shareholders of the Company at the 33rd AGM held on September 18, 2021, approved the said appointment in terms of Section 149 read with Schedule IV of the Companies Act, 2013 ('the Act') and applicable rules framed thereunder and Regulation 17 of the Listing Regulations.

Since the present tenure of Mr. Kanekal Chandrasekhar as an Independent Director expires on September 17, 2023, the Board of Directors on the recommendation of the Nomination and Remuneration Committee and subject to approval of Shareholders at the ensuing AGM, at its meeting held on August 08, 2023 approved the re-appointment of Mr. Kanekal Chandrasekhar (DIN: 06861358) as Non-Executive Independent Director for a second term of 5 (five) consecutive years commencing from 18th September 2023 and who shall hold office as an Additional Director (Independent category) w.e.f. 18th September 2023 upto the date of the forthcoming AGM of the Company.

Mr. Kanekal Chandrasekhar, is an accomplished and multifaceted professional with demonstrated capabilities in corporate planning and driving marketing strategy, revenue maximization, resource management and financial / administrative control in competitive environment within the banking sector, with good knowledge and practical exposure in credit, treasury, foreign exchange, agriculture and general administration. Mr. Kanekal Chandrasekhar has been associated with the Company since September 2017 and is carrying banking experience for over three decades. He has used his expertise in guiding the Company in various spheres of general administration and treasury management.
